Problem

Client

- Needs IT team for complex IT Problems
- Wants to keep costs low

Problem

Client

- Needs IT team for complex IT Problems
- Wants to keep costs low

Senior

- Solves complex IT Problems
- Want to focus on difficult tasks and give away the easy tasks

Problem

- Needs IT team for complex IT Problems
- Wants to keep costs low

- Solves complex IT Problems
- Want to focus on difficult tasks and give away the easy tasks

- Less practical experiences
- Has troubles solve complex IT Problems

Solution – Senjuns.com

Thesis

- (Consultant) Project teams with team and learn oriented senior and junior engineers are more **cost-effective** than any other alternative.
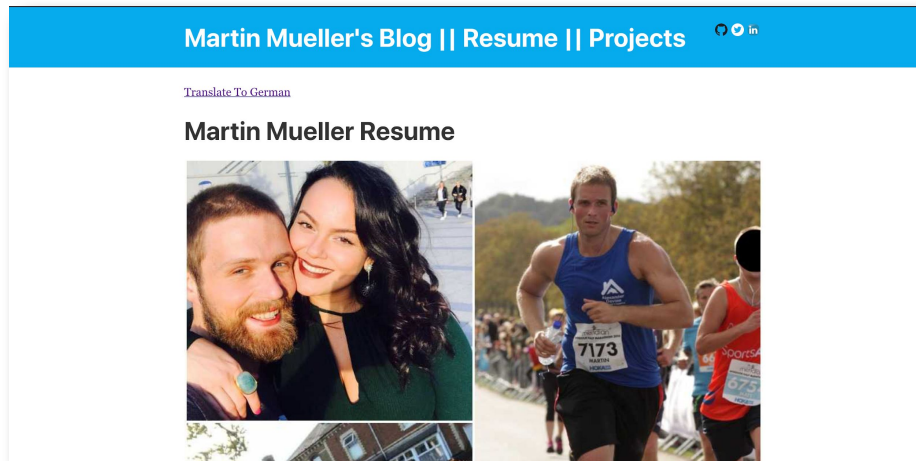

Reasons:

- Senior breaks down complex task to less complex tasks
- Senior gives Junior easy tasks and focus on not easy tasks
- Junior is mainly compensated with learnings
- Senior mentors Junior further

Who am I?

- Martin Müller, Technical founder

- Love AWS, DevOps
  and Fullstack

- Elected AWS Community Builder

- Bringing value to my clients 24/7
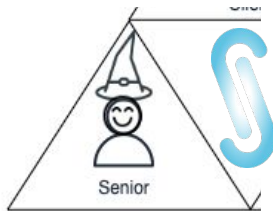

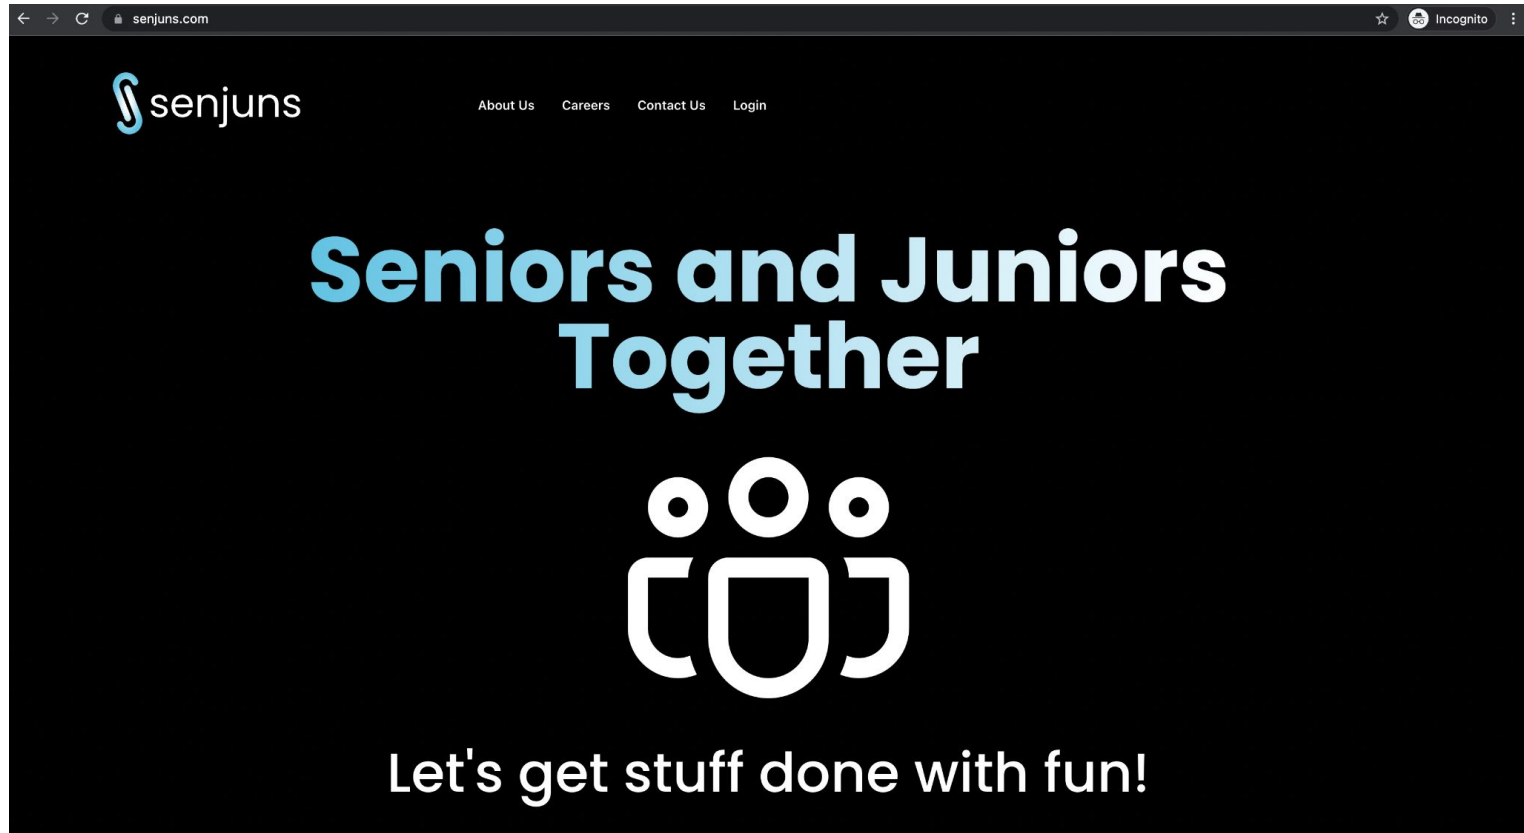

MartinMueller.dev/Resume
